**SECOND SUPERSEDING INDICTMENT**

THE GRAND JURY CHARGES:

**COUNT ONE**

(Conspiracy 18 U.S.C. §§ 1349 and 2)

**INTRODUCTION**

At all times material to this Second Superseding Indictment:

1. Defendant **EMMANUEL PADILLA REYES A/K/A CHRISTIAN HERNANDEZ BONILLA A/K/A NOEL RIVERA(REYES)** and known and unknown co-conspirators resided in the Southern District of Texas and elsewhere.
2. Defendant **REYES**, along with co-conspirators, engaged in a scheme to use fictitious car dealerships to issue and sell hundreds of thousands of Texas temporary buyer tags (“buyer tags”) without selling cars. Defendant **REYES** and co-conspirators used accounts such as Gmail and iMessage to communicate with each other and to deliver fraudulently obtained Texas buyer tags to purchasers all over the United States. The illegal tags pose a danger to the public and to law

enforcement because purchasers use them to avoid obtaining registration, safety inspections, and liability insurance, and can use them to hide their identity from law enforcement.

3. A Vehicle Identification Number (VIN) is the identifying code for a specific automobile. A VIN is like a fingerprint as no two vehicles in operation have the same VIN.

4. In Texas, used car dealers, whether they are individuals or business entities, must have an independent General Distinguishing Number (GDN) license to buy, sell, or exchange used vehicles.

5. To obtain a GDN license, applicants must access the Texas Department of Motor Vehicles' (TxDMV) online eLicensing application portal where they answer questions on an application, sign a certification that their answers are truthful, pay a fee, and provide proof of a surety bond (for buyer complaints only), office space, adequate signage, and identity. Acceptable identification includes a copy of a current state issued driver license (from any state), Texas identification card, United States passport, United States Armed Forces identification, or Texas concealed handgun license.

6. The TxDMV's online eLicensing platform for GDN applications is maintained on computer servers that are located outside the state of Texas.

7. Once an applicant obtains a GDN license, they can buy, sell, or exchange used cars and create temporary buyer tags for the transaction through the TxDMV's online eTag portal that is known as "webDealer." The portal is web-based and is accessed by licensed GDN holders and is password protected. A temporary buyer tag, commonly referred to as a "paper plate" or "temporary tag," is only authorized when there is a vehicle sale and can only be created by a licensed GDN holder using their password to access the webDealer portal and manually enter the vehicle and buyer information, including the VIN. The dealer is responsible for ensuring that vehicles are inspected within 180 days of sale. There is no restriction on the vehicle, buyer, or VIN information that can be input into webDealer. The GDN holder can allow others access to webDealer by sharing their password or by creating additional users on their account.

8. Within 30 days of the active date of the GDN license (not when the dealer is open for business or starts selling vehicles), the GDN licensee is required to notify both the county tax office and appraisal district where the dealership is located that the licensee is a new dealer and to set up a tax account. Dealers are required to file a Motor Vehicle Inventory Tax Statement (VIT) at both the county tax office and appraisal district where the dealership is located. If no sales are made, the dealer must still file the form reporting zero sales.

9. King's Ranch Autoland was a fraudulent and fictitious used car dealer that Defendant **REYES** opened using a fake Florida driver's license and the identity "Noel Rivera." During the time King's Ranch Autoland held a GDN license from approximately April 2018 until it was shut down by the Tx DMV in March 2020, more than 120,000 Texas buyer tags were issued from its TxDMV account. No VIT records were filed for King's Ranch Autoland.

10. Texas Motor Company was a fraudulent and fictitious used car dealer that Defendant **REYES** opened using the identity and social security number of someone other than himself. During the time Texas Motor Company held a GDN license from approximately July 2019 until it was shut down by the TxDMV in December 2020, more than 430,000 Texas buyer tags were issued from its webDealer account. No VIT records were filed for Texas Motor Company.

### **THE CONSPIRACY**

11. From at least in or about April 2018 through in or about May 2021, in the Houston Division of the Southern District of Texas and elsewhere, the defendant,

**EMMANUEL PADILLA REYES A/K/A  
CHRISTIAN HERNANDEZ BONILLA,  
A/K/A NOEL RIVERA**

did knowingly combine, conspire, confederate, and agree with others known and unknown to the Grand Jury, to commit the following offense against the United States:

To devise and intend to devise a scheme and artifice to defraud and to obtain money and property by means of materially false and fraudulent pretenses, representations, and promises, and for the purpose of executing said scheme and artifice to defraud, transmit (or cause to be transmitted) by means of wire and radio communication in interstate commerce, a write, sign, signal, picture, and sound in violation of Title 18, United States Code, Section 1343.

### **MANNER AND MEANS OF THE CONSPIRACY**

12. Defendant **REYES**, along with co-conspirators known and unknown to the grand jury, sought to accomplish the purpose of the conspiracy by the following manner and means, among other things:

a. Defendant and co-conspirators provided false information to the Texas Department of Motor Vehicles such as false identities and copies of fraudulent driver's licenses, fake lease agreements, photos of fake office space and business signs, and other fraudulent documents via the Texas Department of Motor Vehicles' online eLicensing application portal in order to obtain GDN licenses for fictitious car dealerships;

b. Defendant and co-conspirators advertised the sale of Texas buyer tags on social media platforms like Facebook and Instagram;

c. Defendant and co-conspirators used email and iMessage to communicate with each other and to deliver fraudulently obtained Texas buyer tags;

d. Defendants and co-conspirators received and shared fraud proceeds from the fraudulent sale of Texas buyer tags via electronic payment services like Cash App and Zelle, and sometimes by cash.

### **ACTS IN FURTHERANCE OF THE CONSPIRACY**

13. To achieve the purpose of the conspiracy, the defendant and co-conspirators, in the Southern District of Texas and elsewhere, committed and caused to be committed the following acts in furtherance of the conspiracy:

(1) On or about April 18, 2018, defendant **REYES** obtained a GDN dealer license for a shell company called King's Ranch Autoland using the name "Noel Rivera" and a fraudulent Florida driver's license.

(2) On or about March 18, 2019, co-conspirator DT sent, or caused to be sent, an iMessage to co-conspirator LO attaching a PDF of a Texas buyer's tag issued from seller King's Ranch Autoland for a vehicle with a VIN ending in "0285" to a buyer whose initials are "DP" in Manor, Texas. TxDMV records confirm that this buyer tag was issued via King's Ranch Autoland from the TxDMV eTag system. King's Ranch Autoland never reported a car sale on a VIT.

(3) On or about March 24, 2019, co-conspirator DT sent, or caused to be sent, an iMessage to co-conspirator LO attaching a PDF of a Texas buyer's tag along with the buyer and dealer receipts for a vehicle with a VIN ending in "1424." The seller was listed as King's Ranch Autoland issued to a buyer whose initials are

“YB” in Fplugerville [sic], Texas. TxDMV records confirm that this buyer tag was issued from the King’s Ranch Autoland account from the TxDMV eTag system. King’s Ranch Autoland never reported a car sale on a VIT.
